Form 24
(ss. 21, 31, 34, and 142)

ABSTRACT

In a process for a frozen beverage, popsicle, or slush; of alcoholic beverages such as wine or beer. It is a new product even though comprised of traditional ingredients and methods. The process is as follows: the alcoholic beverage is poured into a form and frozen or mixed with crushed ice. It is best if consumed while frozen. Sweetener is optional. Also optional is the forming of the beer or wine into the shape of a bottle of beer, wine, or other alcoholic beverage. The option of having a stick as a handle, as is typical of frozen deserts.

SPECIFICATION

"This invention relates to a new process for producing a product using the basis of beer and wine and other alcoholic beverages.

"Existing retail alcoholic beverages are beer, wine, porter and hard liquors; and existing retail frozen liquid deserts or refreshment include fruit, chocolate and coca-cola flavoured popsicles and slushes. This product will improve choice and variety for the consumer, and provide a refreshing frozen desert for adults. There are no frozen alcohol flavoured products on the market.

"The frozen desert comprises of pouring beer, wine, etc., into a mold and freezing the alcoholic beverage in an atmosphere below 0c or 32f-- with a stick at the centre. Once frozen the refreshment is ready to be consumed.

2092844

CLAIMS

1. A process through freezing of an alcoholic beverage such as beer or wine or adding it to crushed ice, to create a new frozen desert or refreshment.
2. An alcoholic frozen desert, or frozen refreshment, whenever produced as outlined in the specification or an obvious equivalent of this process.
